Shingles

Carbon+

## The look that lasts.

Thick, ruggedly beautiful **Woodcrest**® Shingles are designed to enhance your home with the natural appearance and texture of wood shake but with greater durability and less maintenance. They also offer peace of mind by meeting the highest fire resistance standards in the industry. Best of all, Woodcrest® Shingles are available in six distinctive color blends that are inspired by nature but not limited by it — giving your roof a pop of color you can't get from real wood. To add even more dimension and style to your home, be sure to pair your Woodcrest® Shingles with our color-matched Owens Corning® Hip & Ridge Shingles.

† Owens Corning Roofing strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.
